

INDUSTRIAL HANGERS & CLAMPS

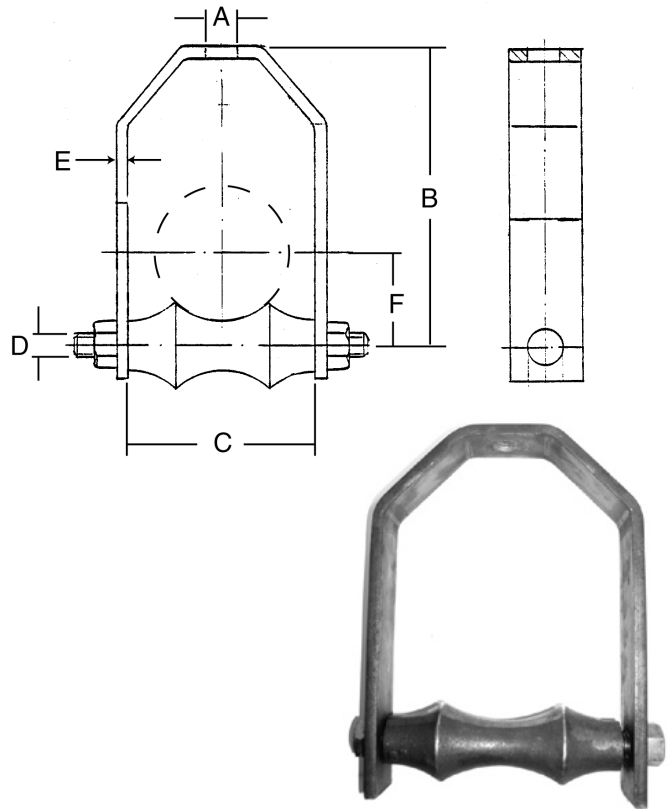

A 466 Standard Roller Hanger

Material: Carbon Steel body, cast iron roller.

Application: Designed for suspending pipe where longitudinal movement and vertical adjustment is required. When this hanger is used with insulation a pipe protection saddle must be used.

Ordering: Specify figure number and pipe size. **When insulation is being used take diameter of pipe, plus two times the insulation thickness to arrive at actual size required.**

Approvals: Complies with Manufacturers' Standardization Society SP - 69 Type 43.
